

Inspiring human belief in a healthier world

With unparalleled strengths in pharmaceutical research, manufacturing and marketing, we are positioned to serve people regardless of geographies. Our new identity embodies this drive to expand our reach and capabilities to bridge the gap with agility to the world's evolving health and patient care needs.

We are amongst the largest producers of Active Pharmaceutical Ingredients (APIs) in the world.

Our facilities are approved by the top pharma regulatory bodies of the world like USFDA, EMEA and MHRA.

We cater to 40% of existing global demand for Anti-Retroviral (ARV) APIs and Finished Dosage Forms (FDFs) used in HIV/AIDS treatment.

We are the trusted partner of choice to multinational pharma giants and global procurement bodies.

Hetero At A Glance

35 world class oncology products

36 State-of-the-art manufacturing facilities (majority of them approved by USFDA, EU, TGA, and more...)

400+ APIs
550+ FDFs

2000+ Product registrations with local regulatory authorities
